

Christmas Scene

Xuan Ming Long Lennox

Amid winter's waltz, snowflakes twirl and sway,
Elves toil in workshops, weaving dreams each day.

Melodies of Christmas carols grace the air,
Children's laughter pirouettes, hearts tender and rare.

Sleds in icy races, a thrilling ballet on the slope,
Snowmen, tall and proud, basking in joy and hope.

Santa merrily bestows his "Ho, ho, ho!" of cheer,
Gingerbread men's aroma spread sweetness near.

Within this festive tapestry, where magic fills the air,
Together we forge cherished memories, love we share.
